

Comprehensive Microscope Service & ISO/IEC 17025:2017 Calibration

Leeds provides the only factory-trained service team for Leeds Comparison Microscopes! Our team is uniquely qualified to keep your instruments in the best possible working order.

We provide ISO/IEC 17025:2017 calibration certificates that can satisfy requirements of your quality program.

We offer a complete service program that includes: **calibration, field service, and in-house repairs.**

- Leeds services *most* makes and models of microscopes
- Service can be performed in your laboratory or at our Minneapolis facility
- Nationwide U.S. and Canada service
- We carry a full line of replacement bulbs available through our [eBay store](http://www.leedsmicro.com). Visit www.leedsmicro.com to find the link to our eBay site

Leeds can provide ISO/IEC 17205:2017 accredited, NIST-traceable calibrations for:

- Magnification matching
- Camera measurement functions
- Digital LCD stage micrometers
- Linear eyepiece reticles

Leeds is ISO/IEC 17025:2017 accredited by PJLA.

PERRY JOHNSON LABORATORY ACCREDITATION, INC.

Certificate of Accreditation

Perry Johnson Laboratory Accreditation, Inc. has assessed the Organization of:

Leeds Precision Instruments, Inc.
17300 Medina Road, Suite 600, Plymouth, MN 55447

and hereby declares that the Organization is accredited in accordance with the recognized International Standard:

**ISO/IEC 17025:2017
& Meets Requirements of ANSI/NCSL Z540-1-1994**

Whereby, technical competence has been confirmed for the associated scope supplement, in the fields of:

**Dimensional Calibration
(As detailed in the supplement)**

Accreditation claims for conformity assessment activities shall only be made from the addresses referenced within this certificate and shall apply solely to those activities identified in the related scope. This Accreditation is granted subject to the Accreditation Body rules governing the Accreditation referred to above, and the Organization hereby commits to observing and complying with those rules in their entirety.

Comparison microscopes are complex instruments that need regular service & preventative maintenance.

Without regular, comprehensive maintenance, lubrication on friction surfaces can dry out, leading to increased wear on microscope components and potential mechanical failure. Additionally, dust accumulation in the optical path can significantly degrade image quality.

Request microscope service on our website: www.leedsmicro.com/request-service/ or at **763-546-8575**.
